The company operates a house of iconic brands including Old Navy, Gap, Banana Republic, and Athleta. It sells products through company-operated stores in the US, Canada, Japan, and Taiwan, as well as through franchise stores and online channels across Asia, Europe, Latin America, the Middle East, and Africa. At the end of fiscal 2024, Gap Inc. had 2,506 company-operated stores and 1,063 franchise locations. The company's business is seasonal, with sales typically peaking during the end-of-year holiday period.

Operations

The company operates as an apparel retail company. The company offers apparel, accessories, and personal care products for men, women, and children. Its products include adult apparel and accessories, and lifestyle products for use in yoga, training, travel, and recovery activities for women and girls. The company offers its products through company-operated stores, franchise stores, websites, and third-party arrangements, as well as licensing partnerships.

Short company profile

The Gap, Inc. is a global omni-channel retailer of apparel, accessories, and personal care products for men, women, and children. The company operates a house of iconic brands including Old Navy, Gap, Banana Republic, and Athleta. It sells products through company-operated stores in the US, Canada, Japan, and Taiwan, as well as through franchise stores and online channels across Asia, Europe, Latin America, the Middle East, and Africa. At the end of fiscal 2024, Gap Inc. had 2,506 company-operated stores and 1,063 franchise locations. The company's business is seasonal, with sales typically peaking during the end-of-year holiday period.

Company operations summary

Gap Inc. manages its business through four primary operating segments: Old Navy Global, Gap Global, Banana Republic Global, and Athleta Global, which are aggregated into one reportable segment. The company designs most of its products and sources them from over 200 vendors with factories in approximately 30 countries. For fiscal 2024, Vietnam and Indonesia were key sourcing countries, accounting for about 27% and 19% of merchandise purchases, respectively. As of February 1, 2025, the company had a workforce of approximately 82,000 employees, with 84% working in retail locations. The company ended fiscal 2024 with 2,506 company-operated stores and 1,063 franchise stores.

Geographic reach

Gap Inc. operates company-owned stores in the United States, Canada, Japan, and Taiwan. Through franchise and licensing agreements, its brands have a presence in about 40 countries across Asia, Europe, Latin America, the Middle East, and Africa. As of February 1, 2025, approximately 82% of the company's employees were located in the U.S., with the majority of non-U.S. employees in Canada and Japan.

Sales and marketing summary

Gap Inc. is an omni-channel retailer, selling to customers through company-operated stores, franchise stores, brand websites, and third-party arrangements. The company enhances the customer experience with services like buy online pick-up in store, order-in-store, and ship-from-store. It uses a diversified media mix, from traditional to digital and social media, to drive brand health and customer engagement. The company also leverages its customer database for personalized marketing and operates an integrated loyalty program where customers can earn and redeem rewards across all its brands.

Financial performance summary

Gap Inc. reported improved financial results for fiscal year 2024 compared to fiscal year 2023. The company's net sales increased by 1% to $15.1 billion, while net income saw a significant rise to $844 million from $502 million in the prior year. Fiscal 2024 consisted of 52 weeks, whereas fiscal 2023 had 53 weeks. In fiscal 2024, the 1% increase in net sales to $15.1 billion was primarily driven by a 3% growth in comparable sales, led by strong performance at Old Navy Global (+3%) and Gap Global (+4%). This growth was achieved despite the loss of sales from the extra 53rd week in the prior fiscal year. Online sales increased by 4%, while store and franchise sales remained flat compared to fiscal 2023. The company's net income grew to $844 million, or $2.20 per diluted share, in fiscal 2024, up from $502 million, or $1.34 per diluted share, in fiscal 2023. The improvement was largely due to an expanded gross margin, which increased to 41.3% from 38.8%. This was driven by lower commodity costs and incremental income from its credit card revenue sharing agreement. Operating expenses also decreased by $100 million, contributing to an operating income of $1.1 billion, nearly double the $560 million from the previous year. As of February 1, 2025, the company's cash and cash equivalents stood at $2.3 billion, an increase from $1.9 billion at the end of fiscal 2023. Net cash provided by operating activities was $1.5 billion for the year. Cash used for investing activities increased, mainly due to $247 million in net purchases of short-term investments and $447 million in capital expenditures. Financing activities included $75 million in share repurchases and dividend payments of $0.60 per share.

Company historical background

The Gap, Inc. is a house of iconic apparel brands founded in San Francisco. The namesake Gap brand was established in 1969. The company expanded its portfolio by acquiring Banana Republic in 1983 and Athleta in 2008, and by launching its value-focused Old Navy brand in 1994. The company operates as an omni-channel retailer, offering apparel, accessories, and personal care products for men, women, and children through a global network of company-operated and franchise stores, as well as online platforms.

Gap Inc. Announces Leadership Transition at Old Navy SAN FRANCISCO, Calif., August 27, 2026 — Gap Inc. (NYSE: GAP) today announced the appointment of Michael Francis as President and Chief Executive Officer of Old Navy, effective November 2, 2026. Francis will succeed Haio Barbeito, who will transition from his operating role into an advisory capacity. Francis joined Gap Inc. in March 2026 as Chief Customer Officer, Old Navy, and Head of Marketing Shared Services. An award-winning C-suite executive, entrepreneur, and strategic advisor, Francis has launched and scaled dozens of brands for global companies, designers, and cultural icons. His leadership experience spans over four decades of commercial, marketing and business transformation leadership across the leading U.S. consumer brands and retailers. As strategic advisor to Walmart’s c-suite and board for a decade, Francis supported the world’s largest retailer in growing nearly $200 billion in revenue through its evolution into an omni-channel, e-commerce, membership and advertising business. This followed meaningful marketing and operating roles at DreamWorks Animation and JCPenney, led by a 26-year career at Target, where he served as EVP and Chief Marketing Officer for over a decade. He also previously consulted with Gap Inc. as part of broader portfolio engagement work. Beginning his career on the retail sales floor, Francis built a leadership philosophy grounded in the belief that exceptional customer experiences start at the frontline. Throughout his career, Francis has combined deep consumer insight, strategic and operational rigor, and creative vision to drive growth, commercial resiliency, brand relevance, and customer loyalty. “Old Navy is poised for its next chapter of growth, and Michael is uniquely equipped to step into this operating role," said Richard Dickson, President and Chief Executive Officer of Gap Inc. “Michael is one of the most respected commercial, brand and customer leaders in retail. His experience building iconic brands, cultivating customer connections, and driving transformation at scale will help Old Navy strengthen its relevance, accelerate growth, and deliver even greater value for customers." In his new role, Francis and the Old Navy team will continue to build upon the transformation already underway. His focus will include strengthening the brand's storytelling across commercial and marketing channels, enhancing the omni-channel customer experience, elevating in-store experiences, and deepening Old Navy's connection with the families it serves. "Old Navy is an iconic American brand with a unique place in the lives of millions of customers," said Michael Francis. "I am honored to lead this incredible team and excited by the opportunities ahead. Together, we will continue to sharpen our customer focus, strengthen the

LEADERSHIP CONCERNS

©2026 MSCI INC. ALL RIGHTS RESERVED.

BOARD OF DIRECTORS

The THE GAP board currently has an independent majority, which enables it to more effectively fulfill its critical function of overseeing management on behalf of shareholders. Additionally, the company has split the roles of CEO and chair and has named a fully independent chairman. An independent chairman is characteristic of 40% of companies in MSCI ESG Research's coverage. We also note concerns with the board leadership structure which creates the potential for increased management influence and board level conflicts of interest.

BOARD SKILLS & DIVERSITY

MSCI ESG Research has flagged the board as potentially entrenched due to a number of long-serving directors. An entrenched board may be detrimental to sustainable shareholder interests during periods of extended underperformance and we do see the potential for such entrenchment at this firm due to a significant number of long-serving directors.While we recognize the benefits of experience, long-tenured directors may form relationships that could compromise their independence and therefore hinder their ability to provide effective oversight. Additional factors, e.g. the presence of a controlling shareholder together with the high number of long-tenured directors, may raise some investors' concerns about the board's ability to provide an effective counterbalance to management. We note that 27% in United States have been flagged for having an entrenched board.

5%+ shareholders - Aggregate Voting Power	**12.1%**
Insider Voting Power	**45.7%**

THE GAP is a controlled company, where a single shareholder or shareholder block holds 30% or more of the voting shares or has effective control of the board. The controlling shareholder controls 46.21% of the voting power. We have identified this company as a 'family firm', where one or more families control the voting shares and are typically represented on the board. When assessing family firms, we consider the extent to which the family makes decisions that are in the best interests of non-family shareholders. At THE GAP, there may be no governance risks associated with related party transactions among the controlling founders/family. The company does not have a special capital structure, thus one vote right is afforded per common share. This principle of 'one share one vote' helps align economic and voting power and ensures that no class of shareholders has more voting power than economic exposure.

DIRECTOR ELECTION STANDARD

The company has not adopted a binding majority director election standard (with immediate resignation if the director does not receive a majority of the votes cast), which may limit shareholders' ability to hold members of the board accountable in uncontested elections.

Director Election Rules	
Vote Standard	Majority & Resignation Policy
Immediate Binding Resignation	No

2026 DEF 14A p.1,96

The Board, upon recommendation of the Governance and Sustainability Committee, has nominated the 11 people whose names are set forth below for election as directors, each nominated to serve for a one-year term until the 2026 Annual Meeting and until their successors are duly elected and qualified. Each director nominee other than Brady Brewer is a current director.

Election of directors by shareholders will be determined by a majority of the votes cast with respect to each director by proxy or via the Internet at the Annual Meeting. Pursuant to the Company's Bylaws, a majority of the votes cast means that the number of shares voted "for" a director must exceed the number of shares voted "against" that director. Votes cast shall include votes "for" and "against" a nominee,and exclude "abstentions" and "broker non-votes" with respect to that nominee's election. Under our Corporate Governance Guidelines, at any meeting of shareholders where nominees are subject to an uncontested election (the number of nominees is equal to the number of seats), any nominee for director who receives a greater number of votes "against" his or her election than votes "for" such election, shall submit to the Corporate Secretary of the Company a letter offering his or her resignation, subject to the Board's acceptance.

DELAWARE

CURRENCY: UNITED STATES DOLLAR (USD)

In the United States, most governance principles are governed by state laws that are not uniform or nationally enforced. However, the majority of states have adopted the Model Business Corporation Act (MBCA) as the basis of their own laws by modifying some of the provisions of the MBCA. The MBCA is a body of laws designed to regulate corporate affairs uniformly across different states. It is the basis for business corporation statutes in 32 states and the District of Columbia and is the source of many provisions in the general corporation statutes of other states. Further, the Securities and Exchange Commission (SEC) regulates certain governance related matters on a federal level.

The majority of large U.S. businesses are listed on either the New York Stock Exchange (NYSE) or the Nasdaq Stock Market (Nasdaq), and therefore are subject to their listing rules. The U.S. has not adopted a national corporate governance code.

Delaware's corporate governance is defined by the General Corporation Law of the State of Delaware (DGCL), with annual updates and revisions by the Delaware legislature based on the recommendations of the Council of the Corporation Law Section of the Delaware State Bar Association. Judicial decisions by the state's Court of Chancery also set governance practice, with appeals heard at the Delaware Supreme Court.

Companies adopt a unitary board structure in the U.S. The NYSE and Nasdaq listing rules require the majority of directors to be independent. The SEC rules require public companies to disclose and explain their chair-CEO structure and whether one or two people hold the roles. If the roles are combined, the company must further disclose whether it has a lead independent director and specify their role within the company leadership.

Unless stated otherwise in the articles of association, directors may appoint inspectors in advance of any shareholder meeting to determine the number of shares outstanding, voting rights, shares represented at the meeting, existence of a quorum, authenticity and validity of proxies, and take all other actions with regards to the annual shareholders' meeting.

Related party transactions (RPTs) are valid if the transaction was conducted on reasonable and fair terms when it was approved, and the RPT is approved in good faith by the majority of independent directors. If the number of independent directors is less than a quorum, then it must be approved by shareholders.

The board of directors may fix director and officer pay, although most companies delegate the responsibility for defining executive pay to independent directors, usually upon the recommendation of the pay or nominating/governance committee. Officers are executive directors that are responsible for the daily management of the company.

The Dodd-Frank Act requires listed companies to hold an advisory vote every three years on "say on pay" policies, as well as disclose additional information regarding "golden parachute" arrangements linked to merger transactions.

Listed companies must annually disclose the pay of directors and officers, including stock and option awards. Disclosure must be made in a tabular format, along with a descriptive summary of the information in the table. Companies listed on Nasdaq must also disclose pay arrangements between directors or nominees and third parties.

The U.S. market is known for having widely dispersed ownership, but founder-led companies are common. There are multiple share classes with unequal voting rights and voting right limits.

©2026 MSCI INC. ALL RIGHTS RESERVED.

Shareholders with at least 10% voting rights can request to convene a general meeting.

A notice of the meeting, specifying the date, time, place and purpose must be given no less than seven days and no more than 60 days in advance. Special meeting of shareholders may be convened by shareholders owning at least 10% of shares. Typically, each share is entitled to one vote and fractional shares are entitled to proportionate votes. Shareholders do not have preemptive rights unless specifically provided in the bylaws or articles. Dissenting shareholders are entitled to appraisal rights.

Unless otherwise stipulated in the articles, a corporation is not obligated to offer shareholders any shares, option rights or securities when issuing them.

There are no mandatory takeover bid provisions in the U.S.

In 2018, the Delaware enacted a Certification of Adoption of Transparency and Sustainability Standards Act which is a voluntary act broadly enabling entities registered in Delaware to craft a sustainability regime. The Act is primarily a disclosure regime which requires entities to disclose and provide reports regarding their standards and metrics. There are many provisions in the Federal Sarbanes-Oxley Act that govern the audit process. A public company's annual financial statements must be audited by a registered independent auditing firm. Listed companies prepare two annual reports, one for SEC (Form 10-K) and one for their shareholders. The reports to stockholders, as required by SEC, must contain certified financial statements of two-year audited balance sheets, and three-year audited statement of income and cash flows. Directors and officers of the corporation must also be identified. Interim financial statements are not audited, only reviewed by the company's auditors. If an auditor has not reviewed the interim report, it must be accompanied with a notice specifying that the report has not been reviewed by an auditor. Audit firm rotation is not required but lead audit partners are subject to rotation every five years.

NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, SUITABILITY, NON-INFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION. Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall MSCI or any other Information Provider have any liability arising out of or relating to any of the Information, including for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages, even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited.
- The Information, including index construction, ratings, historical data, or analysis, is not a prediction or guarantee of future performance, and must not be relied upon as such. Past performance is not indicative of future results. The Information may contain back tested data. Back-tested performance based on back-tested data is not actual performance but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy. The Information may include "Signals," defined as quantitative attributes or the product of methods or formulas that describe or are derived from calculations using historical data. Signals are inherently backward-looking because of their use of historical data, and they are inherently inaccurate, not intended to predict the future and must not be relied upon as such. The relevance, correlations and accuracy of Signals frequently change materially over time.
- The Information may include data relating to indicative prices, evaluated pricing or other information based on estimates or evaluations (collectively, "Evaluations") that are not current and do not reflect real-time traded prices. No evaluation method, including those used by the Information Providers, may consistently generate evaluations or estimates that correspond to actual "traded" prices of any relevant securities or other assets. Evaluations are subject to change at any time without notice and without any duty to update or inform you, may not reflect prices at which actual transactions or collateral calls may occur or have occurred. The market price of securities, financial instruments, and other assets can be determined only if and when executed in the market. There may be no, or may not have been any, secondary trading market for the relevant securities, financial instruments or other assets. Private capital, equity, credit and other assets and their prices may be assessed infrequently, may not be priced on a secondary market, and shall not be relied upon as an explicit or implicit valuation of a particular instrument. Any reliance on fair value estimates and non-market inputs introduces potential biases and subjectivity. Internal Rate of Return metrics are not fully representative without full disclosure of fund cash flows, assumptions, and time horizons.
- The Information does not constitute, and must not be relied upon as, investment advice, credit ratings, or proxy advisory or voting services. None of the Information Providers, their products or services, are fiduciaries or make any recommendation, endorsement, or approval of any investment decision or asset allocation. Likewise, the Information does not represent an offer to sell, a solicitation to buy, or an endorsement of any security, financial product, instrument, investment vehicle, or trading strategy, whether or not linked to or in any way based on any MSCI index, rating, subcomponent, or other Information (collectively, "Linked Investments").The Information should not be relied on and is not a substitute for the skill, judgment and experience of any user when making investment and other business decisions. MSCI is not responsible for any user's compliance with applicable laws and regulations. All Information is impersonal, not tailored to the needs of any person, entity or group of persons, not objectively verifiable in every respect, and may not be based on information that is important to any user.
- It is not possible to invest in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI makes no assurance that any Linked Investments will accurately track index performance or provide positive investment returns. Index returns do not represent results of actual trading of investible assets/securities. MSCI maintains and calculates indexes but does not manage assets. The calculation of indexes and index returns may deviate from the stated methodology. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase securities underlying the index or Linked Investments. The imposition of these fees and charges would cause the performance of a Linked Investment to be different than the MSCI index performance.

Last ESG Rating action

Rating action date: September 07, 2026

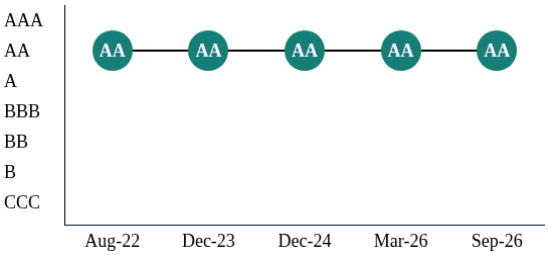

Gap's rating is unchanged at 'AA'.

Gap faces exposure to supply chain labor risks due to its global sourcing model, per our model. The company demonstrates management practices, including supplier monitoring and remediation programs. Per our model, Gap leads industry peers in managing supply chain labor standards. Further, it leads peers in cybersecurity-related practices. Meanwhile, its corporate governance practices are average relative to global market peers, under our model.

- The company is exposed to privacy and data security risks typical for the retail sector. Gap's management systems, including data protection policies and incident response protocols, are developed. Per our model, Gap leads industry peers in privacy and data security management.
- As an apparel retailer, Gap has moderate exposure to the risk of increased costs tied to carbon pricing, per our model. That said, like leading peers, the company conducts environmental assessments of its supply chain via a standardized tool-the Higg Facility Environmental Module. Further, its energy reduction practices include the use of recycled raw materials and cleaner transport modes, among others.
- Gap's board is majority independent of management and other interests. However, it is potentially entrenched, with 3 of 11 directors having served for over 15 years and 2 directors being over the age of 70 as of June 2026, which may not align with investors' interests.

Disclaimer: The ESG Rating action and ESG Rating summary highlight key elements of the company's ESG Rating. AI tools were used in drafting the ESG Rating action and ESG Rating summary. While efforts are made to ensure accuracy, such tools may introduce errors or omissions. In the event of any discrepancies between the ESG Rating action or ESG Rating summary and the underlying ESG Rating, the underlying ESG Rating prevails.

BOARD OF DIRECTORS

The THE GAP board currently has an independent majority, which enables it to more effectively fulfill its critical function of overseeing management on behalf of shareholders. Additionally, the company has split the roles of CEO and chair and has named a fully independent chairman. An independent chairman is characteristic of 40% of companies in MSCI ESG Research's coverage. We also note concerns with the board leadership structure which creates the potential for increased management influence and board level conflicts of interest.

BOARD EFFECTIVENESS

Notably, one or more of the company's directors have received a negative or withheld shareholder vote in excess of 10% in the company's most recently reported election, indicating shareholder dissatisfaction with that individual's performance as a director.

BOARD SKILLS & DIVERSITY

MSCI ESG Research has flagged the board as potentially entrenched due to a number of long-serving directors. An entrenched board may be detrimental to sustainable shareholder interests during periods of extended underperformance and we do see the potential for such entrenchment at this firm due to a significant number of long-serving directors.While we recognize the benefits of experience, long-tenured directors may form relationships that could compromise their independence and therefore hinder their ability to provide effective oversight. Additional factors, e.g. the presence of a controlling shareholder together with the high number of long-tenured directors, may raise some investors' concerns about the board's ability to provide an effective counterbalance to management. We note that 26% in United States have been flagged for having an entrenched board.

AUDIT OVERSIGHT

OWNERSHIP & CONTROL

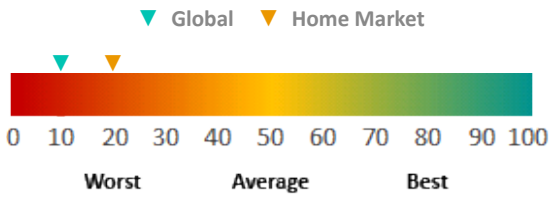

When reviewing the company's ownership structure and shareholder rights relative to global peers, we flag issues relating to the relationship with the controlling shareholder, the vote standard utilized for the election of directors and the ability of shareholders to nominate candidates for election and inclusion of these candidates on the company proxy card.

5%+ shareholders - Aggregate Voting Power	**12.1%**
Insider Voting Power	**45.7%**

THE GAP is a controlled company, where a single shareholder or shareholder block holds 30% or more of the voting shares or has effective control of the board. The controlling shareholder controls 46.21% of the voting power. We have identified this company as a 'family firm', where one or more families control the voting shares and are typically represented on the board. When assessing family firms, we consider the extent to which the family makes decisions that are in the best interests of non-family shareholders. At THE GAP, there may be no governance risks associated with related party transactions among the controlling founders/family. The company does not have a special capital structure, thus one vote right is afforded per common share. This principle of 'one share one vote' helps align economic and voting power and ensures that no class of shareholders has more voting power than economic exposure.

Notwithstanding any other provisions of this Certificate of Incorporation or the By-Laws (and notwithstanding the fact that a lesser percentage may be specified by law, this Certificate of Incorporation or the By-Laws) the affirmative vote of the holders of 66-2/3% or more of the outstanding Voting Stock, voting together as a single class, shall be required to amend or repeal, or adopt any provisions inconsistent with, this Article SEVENTH or any provision hereof.

SHAREHOLDER RIGHTS

There may be governance risks for investors in relation to shareholder rights and management-controlled takeover defense mechanisms at THE GAP including:

- The board's ability to amend the company's charter without shareholder approval
- The board's ability to amend the company's bylaws without shareholder approval
- business combination provisions that fail to include protections of shareholder interests

DIRECTOR ELECTION STANDARD

The company has not adopted a binding majority director election standard (with immediate resignation if the director does not receive a majority of the votes cast), which may limit shareholders' ability to hold members of the board accountable in uncontested elections.

Director Election Rules	
Vote Standard	Majority & Resignation Policy
Immediate Binding Resignation	No

2026 DEF 14A p.1,96

The Board, upon recommendation of the Governance and Sustainability Committee, has nominated the 11 people whose names are set forth below for election as directors, each nominated to serve for a one-year term until the 2026 Annual Meeting and until their successors are duly elected and qualified. Each director nominee other than Brady Brewer is a current director.

Election of directors by shareholders will be determined by a majority of the votes cast with respect to each director by proxy or via the Internet at the Annual Meeting. Pursuant to the Company's Bylaws, a majority of the votes cast means that the number of shares voted "for" a director must exceed the number of shares voted "against" that director. Votes cast shall include votes "for" and "against" a nominee,and exclude "abstentions" and "broker non-votes" with respect to that nominee's election. Under our Corporate Governance Guidelines, at any meeting of shareholders where nominees are subject to an uncontested election (the number of nominees is equal to the number of seats), any nominee for director who receives a greater number of votes "against" his or her election than votes "for" such election, shall submit to the Corporate Secretary of the Company a letter offering his or her resignation, subject to the Board's acceptance.

DELAWARE

CURRENCY: UNITED STATES DOLLAR (USD)

In the United States, most governance principles are governed by state laws that are not uniform or nationally enforced. However, the majority of states have adopted the Model Business Corporation Act (MBCA) as the basis of their own laws by modifying some of the provisions of the MBCA. The MBCA is a body of laws designed to regulate corporate affairs uniformly across different states. It is the basis for business corporation statutes in 32 states and the District of Columbia and is the source of many provisions in the general corporation statutes of other states. Further, the Securities and Exchange Commission (SEC) regulates certain governance related matters on a federal level.

The majority of large U.S. businesses are listed on either the New York Stock Exchange (NYSE) or the Nasdaq Stock Market (Nasdaq), and therefore are subject to their listing rules. The U.S. has not adopted a national corporate governance code.

Delaware's corporate governance is defined by the General Corporation Law of the State of Delaware (DGCL), with annual updates and revisions by the Delaware legislature based on the recommendations of the Council of the Corporation Law Section of the Delaware State Bar Association. Judicial decisions by the state's Court of Chancery also set governance practice, with appeals heard at the Delaware Supreme Court.

Companies adopt a unitary board structure in the U.S. The NYSE and Nasdaq listing rules require the majority of directors to be independent. The SEC rules require public companies to disclose and explain their chair-CEO structure and whether one or two people hold the roles. If the roles are combined, the company must further disclose whether it has a lead independent director and specify their role within the company leadership.

Unless stated otherwise in the articles of association, directors may appoint inspectors in advance of any shareholder meeting to determine the number of shares outstanding, voting rights, shares represented at the meeting, existence of a quorum, authenticity and validity of proxies, and take all other actions with regards to the annual shareholders' meeting.

Related party transactions (RPTs) are valid if the transaction was conducted on reasonable and fair terms when it was approved, and the RPT is approved in good faith by the majority of independent directors. If the number of independent directors is less than a quorum, then it must be approved by shareholders.

The board of directors may fix director and officer pay, although most companies delegate the responsibility for defining executive pay to independent directors, usually upon the recommendation of the pay or nominating/governance committee. Officers are executive directors that are responsible for the daily management of the company.

The Dodd-Frank Act requires listed companies to hold an advisory vote every three years on "say on pay" policies, as well as disclose additional information regarding "golden parachute" arrangements linked to merger transactions.

Listed companies must annually disclose the pay of directors and officers, including stock and option awards. Disclosure must be made in a tabular format, along with a descriptive summary of the information in the table. Companies listed on Nasdaq must also disclose pay arrangements between directors or nominees and third parties.

The U.S. market is known for having widely dispersed ownership, but founder-led companies are common. There are multiple share classes with unequal voting rights and voting right limits.

Shareholders with at least 10% voting rights can request to convene a general meeting.

A notice of the meeting, specifying the date, time, place and purpose must be given no less than seven days and no more than 60 days in advance. Special meeting of shareholders may be convened by shareholders owning at least 10% of shares. Typically, each share is entitled to one vote and fractional shares are entitled to proportionate votes. Shareholders do not have preemptive rights unless specifically provided in the bylaws or articles. Dissenting shareholders are entitled to appraisal rights.

Unless otherwise stipulated in the articles, a corporation is not obligated to offer shareholders any shares, option rights or securities when issuing them.

There are no mandatory takeover bid provisions in the U.S.

In 2018, the Delaware enacted a Certification of Adoption of Transparency and Sustainability Standards Act which is a voluntary act broadly enabling entities registered in Delaware to craft a sustainability regime. The Act is primarily a disclosure regime which requires entities to disclose and provide reports regarding their standards and metrics. There are many provisions in the Federal Sarbanes-Oxley Act that govern the audit process. A public company's annual financial statements must be audited by a registered independent auditing firm. Listed companies prepare two annual reports, one for SEC (Form 10-K) and one for their shareholders. The reports to stockholders, as required by SEC, must contain certified financial statements of two-year audited balance sheets, and three-year audited statement of income and cash flows. Directors and officers of the corporation must also be identified. Interim financial statements are not audited, only reviewed by the company's auditors. If an auditor has not reviewed the interim report, it must be accompanied with a notice specifying that the report has not been reviewed by an auditor. Audit firm rotation is not required but lead audit partners are subject to rotation every five years.

GLOSSARY

MSCI ESG RATINGS AND SCORES

FINAL ESG RATING

- Letter ratings are relative within each MSCI ESG Ratings industry. Each Final Industry-Adjusted Company Score is converted to an equivalent rating on the AAA-CCC scale.

ESG PILLARS

- the ***Environment Score*** represents the weighted average of all Key Issues that fall under the Environment Pillar
- the ***Social Score*** represents the weighted average of all Key Issues that fall under the Social Pillar
- the ***Governance Score*** represents the sum of score deductions derived from Key Metrics included in Corporate Governance (including Board, Pay, Ownership & Control, and Accounting) and Corporate Behavior (including Business Ethics and Tax Transparency)
- the ***Environment Weight*** represents the sum of the weights of all Key Issues that fall under the Environment Pillar
- the ***Social Weight*** represents the sum of the weights of all Key Issues that fall under the Social Pillar
- the ***Governance Weight*** represents the sum of the weights of Corporate Governance and Corporate Behavior, with a minimum weight set at 33% for all rated issuers

KEY ISSUES

For each industry and Company-Specific Key Issue that contributes to the final rating:

- ***Weight*** contribution to the final rating
- ***Exposure*** Score (available for companies published since June 2011; excluding Raw Material Sourcing – Environmental)
- ***Management*** Score (available for companies published since June 2011; excluding Raw Material Sourcing – Environmental)
- Overall ***Key Issue Score***

WEIGHTED-AVERAGE KEY ISSUE SCORE VS. INDUSTRY RELATIVE SCORE

- the ***Weighted-Average Key Issue Score*** is dynamic, reflecting changes in any underlying scores as of the Last Update date, while the ***Industry Relative Score*** is more static and corresponds to the Rating Date. Issues that we determine do not present material risks or opportunities to companies in a given industry receive 0% weight and do not impact the overall ESG rating.

SCORES AND CALCULATION OF AVERAGE, PERCENTILE AND RATING DISTRIBUTION

All averages, percentiles, and rating distributions found in the report are based on companies in the relevant MSCI ESG Ratings Industry and are calculated based on industry scores as of the date of publication of this report.

ESTIMATED CARBON EMISSIONS

Carbon estimates are based on carbon intensity (carbon emissions/sales). The Estimate Key represents the source of the estimated carbon emissions data. E.CSI represents Company-Specific Intensity estimates based on previously disclosed data. E.GICSSI represents estimates based on the GICS Sub-Industry average. For E.GICSSI we set five levels of confidence (High, Moderately High, Moderate, Moderately Low, and Low). The Carbon Estimation Methodology document, available on ESG Manager, describes the estimation model in greater detail.

GOVERNMENT SUPPORT RATING

We calculate the 'government support rating' for Supranationals and Development Banks based on the weighted average of member countries' Governance scores using the MSCI ESG Government Ratings methodology. These scores are based on measures of political governance (strength of institutions, corruption control, civil liberties, and human rights) and financial accountability.

- The Information, including index construction, ratings, historical data, or analysis, is not a prediction or guarantee of future performance, and must not be relied upon as such. Past performance is not indicative of future results. The Information may contain back tested data. Back-tested performance based on back-tested data is not actual performance but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy. The Information may include "Signals," defined as quantitative attributes or the product of methods or formulas that describe or are derived from calculations using historical data. Signals are inherently backward-looking because of their use of historical data, and they are inherently inaccurate, not intended to predict the future and must not be relied upon as such. The relevance, correlations and accuracy of Signals frequently change materially over time.
- The Information may include data relating to indicative prices, evaluated pricing or other information based on estimates or evaluations (collectively, "Evaluations") that are not current and do not reflect real-time traded prices. No evaluation method, including those used by the Information Providers, may consistently generate evaluations or estimates that correspond to actual "traded" prices of any relevant securities or other assets. Evaluations are subject to change at any time without notice and without any duty to update or inform you, may not reflect prices at which actual transactions or collateral calls may occur or have occurred. The market price of securities, financial instruments, and other assets can be determined only if and when executed in the market. There may be no, or may not have been any, secondary trading market for the relevant securities, financial instruments or other assets. Private capital, equity, credit and other assets and their prices may be assessed infrequently, may not be priced on a secondary market, and shall not be relied upon as an explicit or implicit valuation of a particular instrument. Any reliance on fair value estimates and non-market inputs introduces potential biases and subjectivity. Internal Rate of Return metrics are not fully representative without full disclosure of fund cash flows, assumptions, and time horizons.
- The Information does not constitute, and must not be relied upon as, investment advice, credit ratings, or proxy advisory or voting services. None of the Information Providers, their products or services, are fiduciaries or make any recommendation, endorsement, or approval of any investment decision or asset allocation. Likewise, the Information does not represent an offer to sell, a solicitation to buy, or an endorsement of any security, financial product, instrument, investment vehicle, or trading strategy, whether or not linked to or in any way based on any MSCI index, rating, subcomponent, or other Information (collectively, "Linked Investments").The Information should not be relied on and is not a substitute for the skill, judgment and experience of any user when making investment and other business decisions. MSCI is not responsible for any user's compliance with applicable laws and regulations. All Information is impersonal, not tailored to the needs of any person, entity or group of persons, not objectively verifiable in every respect, and may not be based on information that is important to any user.
- It is not possible to invest in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI makes no assurance that any Linked Investments will accurately track index performance or provide positive investment returns. Index returns do not represent results of actual trading of investible assets/securities. MSCI maintains and calculates indexes but does not manage assets. The calculation of indexes and index returns may deviate from the stated methodology. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase securities underlying the index or Linked Investments. The imposition of these fees and charges would cause the performance of a Linked Investment to be different than the MSCI index performance.
- Information provided by MSCI Solutions LLC and certain related entities ("MSCI Solutions"), including materials utilized in MSCI sustainability and climate products, have not been submitted to, nor received approval from any regulatory body. MSCI sustainability and climate offerings, research and data are produced by, and ratings are solely the opinion of MSCI Solutions. SciFin; New Research: 78% of Revenue Leaders Are Still Blindsided by Deal Risk, Even as Revenue Tech Spend Rises
11/06/2026

2026 NOV 7 (VerticalNews) -- By a News Reporter-Staff News Editor at Investment Weekly News -- New research from SciFin, a new company that helps revenue teams turn fragmented information into timely action, and Censuswide reveals that critical customer and deal risk is still catching revenue teams by surprise, even as investment in revenue technology rises. The Cost of the Revenue Context Gap, a survey of 500 U.S. Sales and Revenue Operations leaders, found that 78% have been surprised by a deal falling through that their systems indicated was fine, even as 65% said their organization increased annual spending on revenue systems this year. Nearly three in four (74.6%) have also lost a customer they didn't realize was at risk, and 71% say that by the time their organization identifies risk, it is usually too late to change the outcome. This press release features multimedia.
View the full release here: https://www.businesswire.com/news/home/20261013553357/en/ SciFin calls this disconnect the Context Gap: the distance between systems of record and the complete context that leaders need to understand what is happening, why it is happening, and what to do next. In the 2025 Gartner(R) Transform Prospects Into Buyers With Revenue Enablement Analytics report, Gartner states, "Siloed revenue processing hurts enterprise outcomes by causing missed opportunities and poor revenue prediction." 1 I've seen this problem firsthand as the CEO of my last company, said Mohit Aron, CEO of SciFin. There is nothing more critical to company success than growing and retaining customers. Revenue leaders need context they can depend on to guide the organization and deliver shareholder value. The findings reveal two recurring patterns behind the Context Gap for revenue teams: Reality Divergence, where the information recorded in systems increasingly fails to reflect what is actually happening; and Context Fragmentation, where the truth is scattered across tools, interactions, and people. Reality Divergence: The Record Doesn't Match Reality Revenue teams have systems of record, but leaders routinely discover that those records are incomplete or outdated at the moments they matter most.

81% of leaders say most CRM updates reflect what someone had time to type rather than reality.

Nearly three-quarters (74.6%) have lost a customer they did not realize was at risk until it was too late to save them. 35% of forecasted deals slip into a later quarter, on average, underscoring the sales optimism versus deal reality.

The implication is that leaders are increasingly managing the business through incomplete or outdated information, creating blind spots that surface only after customers or deals are already lost. Where Confidence Runs Out Even when leaders have a forecast, confidence in the underlying picture remains fragile.

75% couldn't honestly tell their CEO or board they're very confident in this quarter's number.

Johnson County, KS - Johnson County awards more than $476,000 for water quality improvements

Johnson County awards more than $476,000 for water quality improvements
Johnson County is investing $476,600 in three projects that will enhance water quality improvement as part of the county's Green Infrastructure Grant program.

The projects include tree planting to expand the urban tree canopy, commercial site conversion from turf to native landscaping and residential neighborhood native landscaping and stream corridor restoration.

This week, the Johnson County Board of County Commissioners approved funding for the following groups. (See map for specific project locations).

* $150,000 award to Bridging the Gap, Inc. for watershed tree plantings in Overland Park

* $171,600 award to Habitat for Humanity for native plantings in Olathe

* $155,000 award to WaterOne for native plant conversion in Lenexa

These three projects are part of a second round of grant funding after the BOCC earlier approved nearly $1.2 million to fund seven projects during the first round of funding in August.

Funded through the county's Stormwater Management Program, projects selected to receive a Green Infrastructure Grant will help improve water quality, reduce flood risk and restore the landscape's ability to absorb and slowly release rainfall rather than sending it rapidly downstream.

For additional information on the Green Infrastructure Grant program and other stormwater programs, please visit the county's website.

What's On Sale This Weekend at Gap? (October 16 – 18)

Like many other retailers, you can always count on Gap to have a good weekend sale. Over the next few days you can save big on all of Gap's best products. From now until Wednesday, October 21st you can save 40% off almost everything sitewide. But it doesn't stop there! With the holidays nearly here there's no better time to start considering your matching pajamas for the family. And right now, Gap is offering 50% off its best holiday PJs for the whole family this weekend.

What to Know About Gap's Encore Rewards Program?

Like every good brand, Gap has a great rewards program for their loyal shoppers. The Encore program runs across all Gap brands, including Old Navy, Gap Factory, Banana Republic, and more. So the more you shop across the board the more points you earn, and the more you save.

With Encore there are three tiers — Core, which is open to all; Premier, which is for those who spend $350+ per year; and All-Access which is exclusively for card members. Aside for all-access members, you earn five points for every dollar spent while card members get 25 points. Next to that, you also gain access to exclusive products, offers, and experiences first; free basic shipping on orders of $50 or more, birthday coupons, and free online returns. But make sure to read more about it here.

Can You Use Pay-in-4 at Gap.com?

Yes! Gap and Gap.com offer multiple payment options including Pay-in-4 or pay overtime. You can use PayPal, Afterpay, or Klarna to make a pay-in-4 order on Gap. Read more about it here.

Gap Shipping Policy 2026

As I mentioned before, Gap offers free basic shipping, which is 5-8 business days, on orders of $50 or more when you're an Encore member. But see the full breakdown below and read more about it here.

Basic Shipping: (5-8 business days) — $7.50 for non-members; free for all members on orders of $50 or more.

Standard Shipping: (2-5 business days) — $9.50 for non-members; $7.50 for Core members; free for Premiere and All-Access members on orders of $50 or more.

Express Shipping: (2-3 business days) — $18.

Priority Shipping: (1-2 business days) — $25.

Gap Return Policy 2026

When it comes to online returns Gap makes it pretty easy. They offer free in-store returns and exchanges on all orders. However, if you can't make it to a store and need to process your return via mail, here's what to know.

* It's free for all Encore Members.

* If you're not a member, there is a $6 return fee subtracted from your refund.

* 30 days to return or exchange from the delivery date.

But you can read more about it here.
